

VARTA ULTRA LITHIUM 1.5V AA, AAA and 9V Block

Primary Ultra Lithium

With up to 38 % reduced weight, longer running time and higher discharge voltage level in comparison to Alkalines – VARTA ULTRA LITHIUM batteries are perfect for energy intensive applications which require a long term and high energy demand. Due to their ability to perform exceptionally well under extreme conditions these cells are highly suited to applications such as safety devices, smart home devices, smoke detectors, security devices and outdoor usage.

Your benefits for professional applications:

- Smart and convenient packaging solutions for OEM customers
- Works exceptionally well under extreme conditions and temperatures
- "Battery Experts since 1887" – VARTA brand quality ensured
- Up to 15 years shelf life
- Innovative new cell design and unique matt label finish for a premium haptic appearance and maximum brand recognition

You are looking for a high quality performance energy supply which requires a customer solution for your project?

We are your professional partner in new business fields. VARTA empowers independence and sets new benchmarks with you.

Product Overview

Lithium 1.5V AA & AAA and 9V Block

TYPE DESIGNATION	ARTICLE NO.	QUANTITY PER CARTON	VOLTAGE (V)	CAPACITY (mAh)	DIAMETER (mm)	HEIGHT (mm)	LENGTH (mm)	WIDTHY (mm)	WEIGHT (g)
FR AAA 1.5V	6103 101 501	900	1.5	1100	10.5	44.5			7.3
FR AA 1.5V	6106 101 501	560	1.5	2900	14.5	50.5			15.0
CR block 9V	6122 101 501	208	9.0	1150		17.5	49.0	26.5	41.0

Applications

- Sport and outdoor usage

- Smart home device
- Smoke detector
- GPS system
- Safety device
- Digital camera
- Energy intensive applications (long term and high energy demand)
